My dear Son

The Company General called upon me last evening and informed me a vessel would sail this day for N. York. He also tells me you wrote to them in good ^{health} spirits which affords me great pleasure. This is my third letter since you left us. The other two were sent to Halifax to care of to Prince. I have two from you, leaving one at home which I hope you will pay my soon. Our family are in the enjoyment of health and much happiness at the Bowery. There is the city. I have a very good garden, quantities of But. of cherries. Your cows give us plenty of Milk. Your horse very good which in a carriage but very awkward out of it. Your chair answers all the purposes of riding the city. The chair you left was never in my possession. Capt. And Phillips having delivered to a man whose name I have forgotten and who he said had a right to them.

I hope this will find you at N. York.
