

thing and happens. — I suppose you have e'er
then seen Coffin. I receiv'd all the information that
he could give you. — If I find (by G. I will
find out what the project is) — I will puzzle 'em
at my next Court of Sessions. I know how to
beat here — and they shall have an application
from the Justices of Grand Jurors as spirited &
as pointed as I can dictate. — I've already
lay'd so many anchors to windward that I
can't drift. Amen. —

I had before I receiv'd your letter / a direction
Anderson's places. "To be leased for a term not
exceeding three years, & enter'd upon the first of
April" — The leases to be separate. Alderman &
Vanderbeck are preparing proposals to take
both the places & (understand) mean to condition
to clear a proportion of the sand. Till I receive
their proposals which I have ordered to be read
to writing, I can't give an opinion. Pullen's
offer I think is not enough, especially if he means
to make Dicks there. As that operation cannot
be performed without injury to the Intervale.
