Q.N.B. ARCHIVES

The mis-understanding of the
Ghost, is, that he expected to have
the land and Building at his own
will and pleasure, but being rather
knowing the land should be
granted to me and to all other
Schoolmasters after my Decease,
but what vexes most the good friend
or black Gown, is that a certain
Building of thirty five feet long
has been transported by his own
consent on the said land which
I do enjoy and possess at present.

I have nothing more to
inform the Col^l but I hope to have
it in my power by the Spring
to write a Paper or two concerning
the good Ghost.

I conclude with the ques-
-est respects
