

Wednesday dec 5. Left Long Island Sound
~~at~~ S.W. wind came to 4 Eward about 12. it
 blew a hard gale at E.S.W. were oblig'd to Sud
 ran first WNW - & then to 4 N. & N.E. wind as
 Wind & Sea Shifted - having sprung a leak
 we kept our pump constantly going -
 Thursday 6 Gale abated made sail to 4
 E.W. wind WNW - at 12 saw Cape Poge
 Friday 7. about 5 pm were abreast the
 Seal Islands 4 wind died away & came up
 to the Eastward. blew hard so as to put us by
 all sail to save our leak
 Saturday 8 at 4 pm wind shifted in a
 squall to NW. carried sail till at 5 -
 were then obliged to hand all & scud before
 Wind & Sea - our vessel very leaky one
 Pump constantly going - to day by DR in
 43° 30' N Lat 66° 30' W Long ^{This day have over our}
^{board afterwards one cable & some grain & a quantity of apples that were}
^{between decks}
 Sunday 9 Course 4 24 hours SE & E - dist
 108 miles Sudding till at 8 am made
 sail - Lat 46° 55' N. Long 64° 30' W

Monday 10 - wet rainy weather - our
 course N by Lat 42° 46' - Long 64° 55'
 but every thing is so wet & so turned upside
 down with a constancy of bad weather that I
 can do nothing as it ought to be.
 Tuesday 11 - running all day N.W. & N.N.W.
 for the Land - a hard Gale upon us at
 WSW -
 Wednesday 12 hard Gales at WSW by a strong
 tide we supposed our selves off Cape Sable
 so bore away & our course upon 4 whole
 being N.N.E. -
 Thursday 13 Stood in for the Land - about
 12 at night saw it - Stood off till morning
 then stood in again a heavy sea going 4
 two days made our vessel leak exceedingly
 & I was duty made some of the people give
 out for some time
 Thursday
 Friday 13 - Made the Land & got in about
