40 Providence marks out for it — careless as to
Events which Heaven has placed beyond hu
=man foresight —— This is ~~to~~ Resigna
=tion to the Divine Will —— truely so — & very
unlike that crying — Sniveling — crawling —
creeping ~~or rude~~ manner in wch many
long-faced (& therefore (supposd) pious) People bear what
they call the burdens of Life — They are all
a parcell of Sulky apes — with a good will
they would throw their burdens to the Dogs
— but they fear the Lash ——

Thare is a great difference between laughing
at things of a serious important Nature —
Laughing at other Peoples notions of those
things — One will always deserve our most
carefull attention — The other may be very
truly — very ridiculous —.
