

at .50 x head of cove — at 1.50
shore Lt. .75 in shoal water
&c. along shore to said 2^d pt. of
Intersection — Water in this
cove is 1, 2 & 3 feet deep. —

In this cove at abt. 2.00 within
in the S. pt. & about 7.00 within
N. Pt. lies an Island across the
cove leaving a passage about .50
wide on S. side, & 1.00 wide on N.
side — Island about .30 wide. —

Lastly From I. directly to-
wards S. — S. 61° E. 6.25 to apt. at
a rock — whence a course S. 58° E.
cuts 1st pt. of Xⁿ — &
S. 41° E. cuts 2^d pt. of Xⁿ
along shore.

Islands.

From the 34th course of general
Survey, at end of 34.10 the man
U on lb. bears S. 41° 20' W. Inter-
secting Pine Island in course.

From said Xⁿ (facing Northward)
at about 1.50 forward, the rt. side
of Id widens 1.50 almost — and the

the left side about .60, whence
to pts near upper end of Island
draw the shores straight. —

Then again, at said Xⁿ Island is
about .60 wide — & thence down
the Island about 5.00 it begins
to widen, — and at 5.00 from lower
end it widens out on Lt. 3.00, &
on the rt. nearly 1.00 — At 2.00
from the end it narrows in on
rt. about .50 & on Lt. about 2.00

From 4th Stake, on N. W. pt. to
the next pt. Southward, S. 5° E.
5.00 whence along W. side the crs.
is S. 30° E. on which at $\frac{1}{4}$ dist.
shore Lt. about 3.00 —

~~~~~ lower  
About 2.50 above the ~~apt.~~  
end, is about 3.00 wide, curving  
to the rt. (facing towards no. 1.)

Leaving the shore Lt. about 1.50  
at  $\frac{1}{2}$  distance. — From no. 2  
to no. 3. at  $\frac{1}{2}$  dist. shore Lt. .60, &  
from

Between S. & I.
